July 13, 1999

To: Anita Petito, The Hymed Group

Dear Ms. Petito,

I am writing to let you know how pleased I am with your *hyCURE*® product. I have used it on a chronic skin ulcer on a dog's elbow with resulting full healing in about three weeks.

A second application where I have found much value for the *hyCURE*® is in foot pad lacerations. These pad lacerations are terrible at retaining sutures and the constant motion on the foot tends to slow healing. When I have applied the *hyCURE*® daily and kept the foot clean, I have seen dramatic healing within two weeks, with or without a bandage. I am very pleased with the product.

Sincerely,

Chris Draper VMD
